## Clarion Hotel® Arlanda Airport Terminal chose Uponor underground ventilation

### Saving of buildable space

Clarion hotel Arlanda Airport Terminal is Scandinavia's closest meeting place. It is a first-class hotel in the middle of Arlanda Airport on 14 floors with 44 meeting rooms and 430 hotel rooms.

### Project Facts:

|                   |                       |                  |
|-------------------|-----------------------|------------------|
| Location          | Floor space           | Completion       |
| Stockholm, Sweden | 30 000 m <sup>2</sup> | 2012             |
| Building Type     | Product systems       | Number of floors |
| Hotels            | Ventilation           | 14               |

### Project Type

New building

## Underground ventilation installed outside the building save indoor space

The hotel's total area is 30,000 m<sup>2</sup>. These areas include a building with two technology rooms that supply the hotel with preheated air via ventilation ducts in the ground - a cost-effective and smart choice compared to a traditional solution that takes up a lot of buildable space.

Uponor Infra delivered a designed system of pipes and fittings in dimension 1200 mm, completely according to the customer's needs.

### Clarion Hotel® Arlanda Airport Terminal chose Uponor underground ventilation

#### Benefits of working with Uponor Infra

- Uponor Infra delivered a specially designed system completely according to the customer's needs
- Large savings of space

- 
- Underground ventilation meant that the pipes did not have to be transported inside the building.
  - Specially designed products
-
